

WHO Drug Information

Contents

General Policy Issues

- Sale of medical products through the Internet 51
 Future role of ATC and DDDs 51

Current Topics

- Oral contraceptives and venous thrombo-embolic disease 53

Personal Perspectives

- Counterfeit medicines: a special case for concern 57
 Future challenges in regulatory control 59

Reports on Individual Drugs

- Move to triple-drug therapy for HIV 63
 Amiodarone and post-infarction arrhythmia 65

Regulatory Matters

- Update on risks of non-sedating antihistamines 67
 Terfenadine to prescription-only status — astemizole under critical review 67
 Terfenadine: proposed change to prescription only 67
 Terfenadine: further reports 68
 Anorectic agents: revised recommendations 68
 Baclofen: withdrawal reactions 68
 Fluvastatin and muscle disorders: a class effect 68
 Abuse of gamma hydroxybutyric acid (GHB) 69
 Instructions for safe use of systemic corticosteroids 69
 Update on lamotrigine and severe skin reactions 70
 Drug interactions with grapefruit juice 70
 Triazolam and alprazolam and interactions 71
 Ticlopidine and white blood cell disorders 71
 Selegiline-associated hypertensive reactions 71
 Pemoline and liver failure 71
 Ritonavir and interactions 71

- Cidofovir and renal impairment 72
 Granulocyte macrophage colony-stimulating factor and interstitial pneumonia 72
 Metformin and lactic acidosis 72
 Cisapride and asthmatic attacks 72
 Withdrawal of fixed paracetamol-methionine combination 72
 Isotretinoin: risks remain 73
 Withdrawal of fixed-combination barbiturates 73
 Are chlorofluorocarbon propellants essential? 73
 Conjugated estrogens and generic pharmaceuticals: update 74
 Tramadol associated with anaphylactic reactions 74

Essential Drugs:

WHO Model Formulary

Anti-infective drugs: anthelmintics

- Drugs used for cestode (tapeworm) infections 75
 Albendazole 75
 Mebendazole 76
 Niclosamide 76
 Praziquantel 76
 Drugs used for intestinal nematode infections 77
 Albendazole 77
 Levamisole 77
 Mebendazole 77
 Pyrantel 78
 Drugs used for tissue nematode infections 78
 Antifilarials 79
 Diethylcarbamazine 79
 Ivermectin 80
 Suramin sodium 81
 Antischistosomes 81
 Praziquantel 82
 Metrifonate 82
 Oxamniquine 83
 Drugs used in fluke infections 83
 Praziquantel 83

Proposed International

Nonproprietary Names: List 77 85
