

# WHO Drug Information

---

## Contents

### General Policy Topics

- Further proposals on the  
WHO Certification Scheme 149

### Reports on Individual Drugs

- H. influenzae* conjugate vaccines:  
setbacks and successes 160  
Treatment of hyperlipidaemia in  
high-risk patients 160  
The safety of ivermectin in pregnancy 162  
Failure of antimony regimens in  
advanced mucosal leishmaniasis 163  
Oral contraceptives: the significance  
of metabolic effects 164  
Vitamin A: malnutrition and infection 165  
More on acetylsalicylic acid and thrombolysis 167  
Anticoagulation in nonrheumatic atrial  
fibrillation 168

### General Information

- Pricing of pharmaceuticals 170  
Teratology information services 170  
Hypercalcaemia and cancer 171  
Prevention of bacterial endocarditis 172  
Gram-negative sepsis and monoclonal  
antibodies 172

### Regulatory Matters

- Acitretin: confusion over the teratogenic risk 175  
Beclobrate: withdrawal following  
cases of hepatitis 175  
Tighter rules for bioequivalence testing 175  
Eflornithine for Gambian trypanosomiasis 175  
Nitroprusside and cyanide toxicity 176  
Implantable contraceptive system approved 176

### Advisory Notices

- Clozapine-induced neutropenia 177  
Flucloxacillin hepatitis 177  
Sodium oxybate: evidence of abuse 177  
Mesalazine nephrotoxicity 177  
Corticosteroid cover during treatment of  
pneumocystis pneumonia 178  
Zopiclone and neuropsychiatric reactions 179

### Essential Drugs

- Cholera: the need for preparedness 180  
Oral rehydration salts 181  
Tetracycline 182  
Doxycycline 183  
Sulfamethoxazole + trimethoprim 183  
Furazolidone 184

### Recent Publications

- Management of acute diarrhoea in children 185  
Specifications for pharmaceutical preparations 185  
Tablets in the tropics 186  
The pharmacological basis of therapeutics 186

### Proposed International

#### Nonproprietary Names:

- List 64 187
-
