

# WHO Drug Information

## Volume 5, 1991: Index

---

### A

ACE inhibitors, (4) 161  
 Acetylsalicylic acid, (4) 159  
 Aciclovir, (1) 26  
 Acitretin, (1) 6  
 ADR monitoring, (1) 1  
 AIDS update, (1) 14  
 AIDS-related complex, (1) 16  
 Alglucerase, (3) 123  
 Amocarzine, (2) 49  
 Amphotericin B, (1) 27, (2) 70, (3) 132  
 Anabolic steroids, (1) 6  
 Animal toxicity studies, (2) 79  
 Anticonvulsants, (1) 11  
 Antidiarrhoeals, (1) 6  
 Antiepileptics, (2) 46  
 Antihistamines, (2) 65  
 Antihypertensives in elderly, (4) 172  
 Antimicrobial resistance, (2) 53  
 Antiseptics, (3) 118  
 Asthma allergens, (4) 173

### B

Basic tests for pharmaceutical dosage forms, (3) 137  
 Beclobrate, (1) 7  
 Benzoic acid & salicylic acid, (2) 71  
 Blood and blood products, HIV transmission, (2) 63  
 Bovine spongiform encephalopathy (BSE), (2) 59, (4) 176  
 Breast implants, (3) 128  
 Bromocriptine, (2) 65  
 Bronchodilators for asthma, (3) 108

### C

Calcium folinate, (1) 28  
 Cancer, care, (3) 117  
 Cancer therapy in childhood, (3) 111  
   organ transplantation, (2) 56  
 Canthaxanthin, (1) 7  
 Carcinogenicity testing, (4) 170  
 Cephalosporins, (4) 178  
 Clinical trials: randomization, (2) 55  
 Cloxacillin, (3) 126  
 Clozapine, (3) 126  
 Codeine, (1) 28  
 Conjugated estrogens, (3)  
 Contraceptives, (2) 46  
   bacteriuria, (2) 57  
 Corticosteroids for asthma, (3) 108  
 Cost-effectiveness studies, (3) 106  
 Counterfeit drugs, (1) 8  
 Cyclophosphamide, (3) 122

### D

Dexfenfluramine, (4) 178  
 Dideoxycytidine, (3) 122  
 Dietary aids ban, (2) 62  
 Diethylcarbamazine (DEC), encephalitis, (3) 113  
 Dosage form codes, (4) 178  
 Dosage schedules, (2) 55  
 Drug, promotion & education, (3) 105  
   surveillance, (1) 1  
 Drugs used in mycobacterial diseases, (3) 137  
 Drugs, what patients need to know, (4) 168

### E

Elderly, drug effects, (2) 61  
 Epilepsy, (2) 47  
 Estrogen, postmenopausal therapy, (4) 162  
 Essential drugs, revised model list, (4) 181  
 Evaluation of carcinogenic risks, (1) 37

### F

Fenoterol, (3) 123  
 Filgrastim, (2) 61  
 Flecainide, (3) 126  
 Fluconazole, (1) 29, (2) 72, (3) 133  
 Flucytosine, (2) 73, (3) 134  
 Fludarabine, (3) 123  
 Flunarizine, (4) 178  
 Folic acid, (3) 112  
 Fungal infections, (2) 67

### G

Ganciclovir, (1) 29  
 Gangliosides, parenteral, (4) 175  
 Glafenine, (1) 8, (4) 175  
 Global children's vaccine, (4) 169  
 Griseofulvin, (2) 73  
 Gums, water-soluble, (1) 10

### H

Health claims, labelling, (3) 126  
 Hepatitis B vaccine, (2) 44  
 HIV infection, (1) 14  
   costs, (3) 119  
   community, (2) 52  
 HIV transmission/blood, (2) 63  
 Human growth hormone, (2) 43

**I**

Identification for dosage forms, (4) 178  
Immune globulin, intravenous, (4) 163  
Immunocompromised patients, (4) 171  
Influenza vaccine, (2) 57  
INN, proposed list 65, (2) 81  
    proposed list 66, (4) 193  
    recommended list 31, (3) 139  
Interferon alfa for hepatitis C, (3) 124  
International biological standardization, (2) 41  
Iron dextran, allergy, (4) 179  
Isotretinoin, (3) 122  
Ivermectin, neurotoxicity, (3) 127

**K**

Kelp, (1) 11  
Ketoconazole, (1) 30, (2) 75, (3) 135  
    & terfenadine, (3) 125

**L**

Latex sensitivity, (3) 126  
Local, small-scale preparation of eye drops, (3) 137  
Loperamide, (4) 176

**M**

Medications & photosensitization, (3) 138  
Mercury in dental amalgam, (4) 179  
Methylrosalinium chloride (gentian violet), (2) 76  
Metipranolol, (1) 8  
Miconazole, (2) 76  
Microbes on the move, (4) 155  
Mini-dose warfarin, (4) 158  
Minocycline, (2) 65  
Moracizine, (4) 176  
Multidrug-resistant tuberculosis, (2) 53  
Mycoses, systemic, (3) 129

**N**

Nonprescription drug review, (2) 62  
Nonsteroidal anti-inflammatory agents, (1) 11  
Noscapine, (3) 124  
Nystatin, (1) 31, (2) 76

**O**

Omeprazole, (3) 128  
Opportunistic AIDS infections, (1) 20  
Oral contraceptives, (2) 46  
Oral rehydration, (3) 120  
Organ extracts, (1) 8  
Organ transplantation, cancer, (2) 56  
Ototoxicity, drug-induced, (1) 12

**P**

Paediatric antidiarrhoeals, (1) 6  
Parenterals, dangers, (1) 12  
Penicillamine, (1) 12

Penicillin, (3) 110  
    allergy, (4) 164  
Pentamidine, (1) 31  
Permethrin, (3) 109  
Pharmaceutical production, (2) 79  
Photosensitization & medications, (3) 138  
Poisonings, Zimbabwe, (4) 169  
Poliomyelitis vaccine, (4) 165  
Potassium iodide, (2) 77  
Propaphenone, (1) 9  
Prothrombin complex, (2) 62  
Pyrimethamine, (1) 32

**Q**

Quinine, thrombocytopenia, (4) 179  
Quinolones and allergy, (4) 179

**R**

Randomization, (2) 55  
Rational development of therapeutic management, (1) 1  
Ribavirin, hepatitis C, (3) 115  
Rice-based ORS, (2) 50  
Rifampicin, bioavailability, (3) 115

**S**

Sargramostim, (3) 124  
Selenium sulfide, (2) 78  
Steroids/rifampicin, (2) 44  
Succimer, (2) 62  
Sulfadiazine, (1) 32  
Sulfamethoxazole, (1) 33  
Sunscreens, urocanic acid, (1) 9

**T**

Tacrine, (4) 176  
Terfenadine/ketoconazole, (3) 125  
Terodiline, (4) 176  
Thalidomide, (2) 64  
Thiomersal, (4) 167  
Tick-borne borreliosis treatment, (2) 49  
Tienilic acid, (4) 180  
Triazolam, (3) 125  
Trimethoprim, (1) 12  
Trolamine, (1) 9  
Tuberculosis, resurgence, (2) 39  
    multidrug-resistant, (2) 53

**U**

Update on AIDS, (1) 14  
Urocanic acid, (1) 9  
Urokinase, (1) 9

**V**

Vaccine, global children's initiative, (4) 169  
    hepatitis B, (2) 44  
    influenza, (2) 57  
    poliomyelitis, (4) 165

Vinblastine, intrathecal injection, (1) 12  
Vincristine, intrathecal injection, (1) 12  
Vitamin K and anaphylaxis, (4) 179

## **W**

Warfarin, mini-dose, (4) 158  
What patients need to know about drugs, (4) 168  
WHO Model List of Essential Drugs: seventh list, (4) 181  
WHO Programme on International Drug Monitoring, (1) 1

## **Z**

Zidovudine, (1) 17
