

INDEX

The main entries in the Glossary are underlined. For other terms references are given to the main entry in which they appear.

- abortion, 13
abortion rate: abortion, 13
abortus: abortion, 13
accident, 15
action research, 16
activity, 17
activity studies, 18
acute (disease, illness), 19
addiction-forming drug:
 addiction-producing drug, 20
addiction-producing drug, 20
adequacy, 21
administration, 22
administrative research:
 research, 346
admission (to hospital), 25
admission rate: admission, 25
advanced nursing education:
 nursing education, 252
adverse reaction (to a drug), 26
age-specific birth rate:
 birth rate, 46
age-specific fertility rate:
 fertility rate, 142
age-specific mortality rate:
 mortality, 237
aide: auxiliary personnel, 35
air pollution, 27
alcoholism, 28
allied health professions:
 auxiliary personnel,
 paramedical (professions),
 35, 276
alpha alcoholism: alcoholism, 28
ambulatory care, 30
analytical epidemiology:
 epidemiology, 132
ancillary: auxiliary personnel, 35
appraisal: evaluation, 135
appropriateness, 31
arithmetic average/mean: average, 37
assessment: evaluation, 135
assistant: auxiliary personnel, 35
assistant nurse: auxiliary nursing
 personnel, 34
attendance: consultation, 67
audiology, 32
automation, 33
auxiliary dental personnel:
 dental auxiliary, 92
auxiliary nurse: auxiliary nursing
 personnel, 34
auxiliary nursing personnel, 34
auxiliary personnel, 35
auxiliary worker: auxiliary
 personnel, 35
average, 34

backwardness: mental retardation, 229
bacteriology, 39
baseline (data, etc.), 40
basic health services: health
 services, 180
basic medical education: medical
 education, 222

basic medical sciences, 41
basic nursing education: nursing education, 252
basic research: research, 346
basic training: training, 382
bed, hospital, 42
bed complement: bed, hospital, 42
bed occupancy, average: bed, hospital, 42
bed occupancy rate: bed, hospital, 42
bed/population ratio: bed, hospital, 42
bed turnover: bed, hospital, 42
bed turnover interval: bed, hospital, 42
behavioural sciences, 43
beneficiary, 44
beta alcoholism: alcoholism, 28
billion, 45
birth: live birth, 205; stillbirth, 372
birth cohort: cohort, 58
birth control: family planning, 138
birth rate, 46
budget, 47
budgetary control, 48

capital expenditure, 49
capitation, 50
case fatality rate: morbidity rate/ratio, 236
case-finding, 51
central birth rate: birth rate, 46
centralization, 52
chairside assistant, 53

chemical pathology: pathology, 280
chief administrative dental officer: dental administrator, 91
child guidance, 54
child guidance centre, 55
child health doctor, 56
chronic (disease, illness), 57
chronic alcoholism: alcoholism, 28
client group: patient care, 282
clinical assistant, dental: chairside assistant, 53
clinical medical education: medical education, 222
clinical pathology: pathology, 280
clinical research: research, 346
cohort, 58
cohort analysis, 59
community, 60
community care, 61
community dentistry: community medicine, 63
community health, 62
community health care: community health, 62
community medicine, 63
completed fertility rate: fertility rate, 142
composite family: family, 137
comprehensive health care: health care, 164
comprehensive medicine, 64
comprehensive monitoring: drug monitoring, 122
congenital, 65
congenital anomaly: congenital, 65
congenital disorder: congenital, 65

congenital malformation:
congenital, 65
connatal: congenital, 65
constraints, 66
consultation, 67
consumption (of medical care), 69
continuing medical education:
medical education, 222
contraception: family planning, 138
contributor: insured person, 193
control, 70
cost-benefit analysis, 71
cost-effectiveness analysis, 72
cost-efficiency, 73
costing, 74
costs, 75
coverage, 76
covered person: insured person,
193
criterion: norm, 246
critical path analysis, 77
crude birth rate: birth rate, 46
crude mortality rate: mortality,
237
cybernetics, 78

data bank, 79
data processing, 80
day care, 81
day care centre, 82
day care programme, 83
day hospital, 84
day nursery: day care centre, 82
day patient, 85
day patient facilities: day patient,
85

decentralization, 86
deductive planning: planning, 292
deficiency disease, 87
delinquency, 88
Delphi method, 89
delta alcoholism: alcoholism, 28
demand: need/demand, 241
demographic data: statistics, 370
demographic statistics: statistics,
370
dental, 90
dental administrator, 91
dental assistant: chairside
assistant, 53
dental auxiliary, 92
dental auxiliary personnel: dental
auxiliary, 92
dental health, 93
dental health education, 94
dental health services, 95
dental health team, 96
dental hygienist, 97
dental laboratory technician, 98
dental nurse, 99
dental practice, 100
dental practitioner: dentist, 101
dental public health services: dental
health services, 95
dental surgeon: dentist, 101
dentist, 101
dependence-producing drug, 102
deputizing service: emergency call
service, 128
descriptive epidemiology: epidemi-
ology, 132
diagnostic radiologist: radiologist,
336

diagnostic radiology: radiation medicine, 335

diet, 103

direct cost: costs, 75

direct (pattern of providing medical care), 104

disability, 105

disability rate: morbidity rate/ratio, 236

disabled person, 107

disablement: disability, 105

disabling illness, 108

discharge (from hospital), 109

disinsection, 110

disinsectization: disinsection, 110

dispensary, 111

district physician, 112

doctor: physician, 287

domiciliary care: home care, 184

domiciliary consultation: consultation, 67

double-blind trial, 113

drug, 114

drug abuse, 116

drug addiction, 117

drug control, 118

drug dependence, 119

drug habituation, 121

drug monitoring, 122

early abortion: abortion, 13

early disease detection, 123

early fetal death: fetal death, 143

early neonatal death: infant mortality, 189

early neonatal mortality: infant mortality, 189

early neonatal mortality rate: infant mortality, 189

economic, 124

educative activities: dental health education, 94

effect, 125

effectiveness/efficacy/efficiency, 126

emergency call service, 128

environmental health, 129

environmental health officer: sanitary inspector, 355

environmental sanitation: environmental health, 129

epidemiological research: research, 346

epidemiological surveillance, 130

epidemiological survey, 131

epidemiology, 132

ergonomics, 134

evaluation, 135

evaluational research: evaluation, 135

evaluative research: evaluation, 135

excessive drinking: alcoholism, 28

experimental epidemiology: epidemiology, 132

family, 137

family doctor: general practitioner, 154

family physician: general practitioner, 154

family planning, 138

fecundity: fertility, 141

feeble-mindedness: mental retardation, 229

feedback, 139

fee-for-service, 140

fee schedule: fee-for-service, 140
fertility, 141
fertility rate, 142
fetal death, 143
fetal death rate: fetal death, 143
fetal mortality rate: fetal death, 143
field trial, 144
file: data processing, 80
fixed cost: costs, 75
foetal: see fetal death, 143
food, 165
food additive, 146
food-borne disease, 147
food handling, 148
food hygiene, 149
food poisoning, 150
food standards, 151
forecast: projection, 315
function, 152
functional costing: output budgeting, 274
functional relations: line relationships, 204
functioning: organization, 268

gamma alcoholism: alcoholism, 28
general fertility rate: fertility rate, 142
general health services: health services, 180
general hospital: hospital, 185
general practice, 153
general practitioner, 154

general radiologist: radiologist, 336
geometric average/mean: average, 37
geriatric home, 156
geriatrics, 157
gerontology: geriatrics, 157
goal: objective, 261
graduate (medical) training: medical education, 222
gross national product, 158
group practice, 159
guide: norm, 246
guideline: norm, 246

habit-forming drug, 161
half-way house, 162
handicap: disability, 105
handicapped person: disabled person, 107
health, 163
health care, 164
health care professions: paramedical (professions), 276
health centre, 165
health demands: need/demand, 241
health education, 167
health educator, 168
health information system, 169
health infrastructure, 170
health inspector: sanitary inspector, 355
health insurance, 171
health laboratory service, 172
health manpower, 173
health manpower planning, 174
health needs: need/demand, 241

health planning, 175
health practice, 176
health practice research, 177
health profile, 178
health protection, 179
health services, 180
health service statistics:
 statistics, 370
health service system, 181
health statistics: statistics, 370
health status, 182
health survey, 183
home care, 184
hospital, 185
hospital bed: bed, hospital, 42
household: family, 137
human resources: manpower, 215

idealistic planning: planning, 292
idiocy: mental retardation, 229
illegal abortion: abortion, 13
illegitimacy ratio: birth rate, 46
illegitimate birth rate: birth rate,
 46
illness: morbidity, 235
imbecile: mental retardation, 229
immature: prematurity, 299
impairment: disability, 105
impressionistic planning:
 planning, 292
incapacitating illness: disabling
 illness, 108
incapacity: disability, 105
incidence, 187
incidence rate: incidence, 187

index, 188
indicative planning: planning, 292
indicator: index, 188
indirect (pattern of providing medical
 care): direct (pattern of providing
 medical care), 104
individual practice: general
 practice, 153
individual reporting: drug monitoring,
 122
induced abortion: abortion, 13
inductive planning: planning, 292
industrial health: occupational health,
 263
infant death: infant mortality, 189
infant mortality, 189
infant mortality rate: infant
 mortality, 189
infecundity: fertility, 141
infertility: fertility, 141
information system: health informa-
 tion system, 169; management in-
 formation system, 212
in-patient, 191
in-patient facilities: in-patient, 191
input, 192
in-service training: training, 382
insured person, 193
integrated health services,
 integration, 194
integration, 194
intensive care, 195
intensive care unit, 196
intensive monitoring: drug monitor-
 ing, 122
intensive nursing care: intensive
 care, 195; nursing care, 251

intensive therapy: intensive care, 195
intensive therapy unit: intensive care unit, 196
intermediate area, 197
intermediate care: progressive patient care, 313
intermediate fetal death: fetal death, 143
intermediate health administration, 198
intermediate hospital: hospital, 185
invalidity, 199
item-of-service: fee-for-service, 140

job, 201
job analysis, 202
job description: job analysis, 202
job evaluation: job analysis, 202
job specification: job analysis, 202
joint family: family, 137

late abortion: abortion, 13
late fetal death: fetal death, 143
lateral relations: line relationships, 204
legal abortion: abortion, 13
legitimate birth rate: birth rate, 46
linear programming, 203
line relationships, 204
live birth, 205
live birth rate: birth rate, 46
local health area, 206
local health unit, 207

local hospital: hospital, 185
long-term care, 208
long-term planning: planning, 292
low birth weight: prematurity, 299

macro planning: planning, 292
management: administration, 22
management accounting, 209
management by exception, 210
management by objectives, 211
management information system, 212
management techniques, 213
management technologist, 214
manpower, 215
marginal cost: costs, 75
marriage cohort: cohort, 58
mass campaign, 216
mass screening: screening, 337
maternity care, 217
mathematical model: model, 233
mean: average, 37
mechanization: automation, 33
median: average, 37
medical advice, 218
medical assistant, 219
medical audit, 220
medical bacteriology: bacteriology, 39
medical care, 221
medical education, 222
medical physics, 223
medical practitioner: physician, 287
medical record linkage: record linkage, 338

medical rehabilitation: rehabilitation, 344
medical school, 224
 medical social work: social work, 367
 medium-term planning: planning, 292
 mental defect: mental retardation, 229
 mental deficiency: mental retardation, 229
 mental disability: mental retardation, 229
mental disorder, 225
 mental handicap: mental retardation, 229
mental health, 226
mental hygiene, 227
mental illness, 228
mental retardation, 229
 mental subnormality: mental retardation, 229
 method study: work study, 390
 microbiology: pathology, 280
 micro planning: planning, 292
midwife, 231
 milliard: billion, 45
 minimal care: progressive patient care, 313
miscarriage, 232
 mode: average, 37
model, 233
monitoring, 234
 moral defect: mental retardation, 229
 morbid condition: morbidity, 235
morbidity, 235
morbidity rate/ratio, 236
 morbidity survey: health survey, 183
 moron: mental retardation, 229
mortality, 237
 mortality rate: mortality, 237
 motion and time study: work study, 390
 motion study: work study, 390
 multiphasic screening: screening, 357
 multiple screening: screening, 357
 multi-step screening: screening, 357
national development planning, 239
 national health planning: health planning, 175
national health service, 240
need/demand, 241
 neonatal death: infant mortality, 189
 neonatal mortality: infant mortality, 189
 neonatal mortality rate: infant mortality, 189
network analysis, 242
night hospital, 243
night hostel, 244
 nomenclature: fee-for-service, 140
non-medical use of drugs, 245
 non-operating dental auxiliary: dental auxiliary, 92
 non-proprietary drug: drug, 114
norm, 246
 normative: norm, 246
 normative planning: planning, 292
 notification: registration of disease, 343

nuclear family: family, 137
nuclear medicine: radiation medicine, 335
nuclear medicine specialist: radiologist, 336
nurse, 248
nursery school: day care centre, 82
nursing, 249
nursing aide: auxiliary nursing personnel, 34
nursing audit, 250
nursing auxiliary: auxiliary nursing personnel, 34
nursing care, 251
nursing care team: nursing personnel, 254
nursing education, 252
nursing home, 253
nursing personnel, 254
nursing personnel system, 255
nursing practice, 256
nursing service, 257
nutrition, 258
nutritional disorder, 259
nutritional status, 260

O and M: organization and methods, 269
objective, 261
occupational health, 263
occupational hygiene: occupational health, 263
occupational medicine: occupational health, 263
occupational pathology: occupational health, 263

occupational physiology: occupational health, 263
occupational psychiatry: occupational health, 263
occupational psychology: occupational health, 263
occupational therapy, 264
odontostomatological: dental, 90
old age, 265
oligophrenia: mental retardation, 229
on-the-job training: training, 382
operating dental auxiliary: dental auxiliary, 92
operational research, 266
opportunity cost: costs, 75
oral health: dental health, 93
organization, 268
organization and methods, 269
outcome, 270
out-patient, 271
out-patient care: out-patient, 271; progressive patient care, 313
out-patient clinic/department, 272
out-patient facilities: out-patient, 271
output, 273
output budgeting, 274
over-the-counter drug: drug, 114

paediatrics, 275
paramedical (professions), 276
parameter, 277
parity, 278
partnership, 279
pathological physiology: pathology, 280

pathology, 280
patient, 281
patient care, 282
 patient care group: patient care, 282
 percentage: rate/ratio, 338
 performance budgeting: output budgeting, 274
 perinatal death: infant mortality, 189
 perinatal mortality: infant mortality, 189
 perinatal mortality rate: infant mortality, 189
 period cost: costs, 75
 period prevalence: prevalence, 301
 period prevalence rate: prevalence, 301
personal health services, 283
 personal preventive services: preventive services, 304
 perspective planning: planning, 292
PERT, 284
 pharmaceutical preparation: drug, 114
 pharmaceutical specialty: drug, 114
 physical dependence: drug dependence, 119
physical fitness, 285
physical medicine, 286
physician, 287
 physician of first contact: physician, 287
physiology, 288
physiotherapy, 289
pilot programme, 290
plan, 291
planning, 292
 planning-programming-budgeting system: PPBS, 298
 point prevalence: prevalence, 301
 point prevalence rate: prevalence, 301
 point prevalence survey: prevalence, 301
 pollution: air pollution, 27; water pollution, 389
polyclinic, 294
population, 295
population laboratory, 296
 population monitoring: drug monitoring, 122
 population survey: epidemiological survey, 131
 post-basic nursing education: nursing education, 252
 post-basic training: training, 382
 post-basic training, medical: medical education, 222
 postgraduate medical education: medical education, 222
 postgraduate nursing education: nursing education, 252
 postgraduate training, medical: medical education, 222
 post-neonatal death: infant mortality, 189
 post-neonatal mortality: infant mortality, 189
 post-neonatal mortality rate: infant mortality, 189
post-partum period, 297
 post-term: pre-term, 300
PPBS, 298

practitioner: physician, 287
pre-clinical medical education:
 medical education, 222
prematurity, 299
prescription drug: drug, 114
pre-term, 300
prevalence, 301
prevalence rate: prevalence, 301
prevention: preventive medicine,
 302
preventive medicine, 302
preventive services, 304
primary care, 305
primary care centre, 307
primary health care: primary
 care, 305
primary medical care: primary
 care, 305
primary medicine, 308
primary physician, 309
primary prevention: preventive
 medicine, 302
probability sampling:
 sampling, 351
problem syndrome: drug abuse,
 116
professional, 310
professional training, medical:
 medical education, 222
programme, 311
programme budgeting: output
 budgeting, 274
programme evaluation and review
 technique: PERT, 286
programme-performance-
 budgeting system: PPBS, 298
programme plan: programme, 311

programme planning:
 programme, 311
programming, 312
progressive patient care, 313
project, 314
project systems analysis, 316
projection, 315
prophylactic dispensary:
 dispensary, 111
proportion: rate/ratio, 337
proprietary drug: drug, 114
prospective research: research,
 346
protected person: insured person,
 193
protected residence, 317
psychiatric illness: mental
 illness, 228
psychiatric morbidity: mental
 illness, 228
psychic dependence: drug
 dependence, 119
psychogeriatrics, 318
psychological dependence: drug
 dependence, 119
psychosomatic, 319
psychotropic drug, 320
public dental health services:
 dental health services, 95
public health, 321
public health field studies, 323
public health nurse, 324
public health nursing, 325
public health officer, 326
public health ophthalmology, 327
public health physician, 328

public health practice: health practice, 176
public health, school of, 329
public health training, 330
public relations, 331
puerperium: post-partum period, 297
purposive sampling: sampling, 351

queueing theory, 333

radiation medicine, 335
radio-diagnostician: radiologist, 336
radiology, diagnostic: radiation medicine, 335
radiotherapist: radiologist, 336
radiotherapy: radiation medicine, 335
random sampling: sampling, 351
rate/ratio, 337
record linkage, 338
reference man/woman, 339
region, 340
regional hospital: hospital, 185
regionalization, 342
regional planning, 341
registration (of disease), 343
rehabilitation, 344
rehabilitative services, 345
replacement cost: costs, 75
research, 346
research and development, 347
resources, 348
retrospective research: research, 346

roentgenologist: radiologist, 336

safety (of a drug), 349
sample, 350
sampling, 351
sampling unit, 352
sanitarian: sanitary inspector, 355
sanitary aide: sanitary inspector, 355
sanitary assistant: sanitary inspector, 355
sanitary bacteriology: bacteriology, 39
sanitary engineer, 353
sanitary inspection, 354
sanitary inspector, 355
satisficing, 356
school dental nurse: dental nurse, 99
screening, 357
secondary care, 358
secondary medical care: secondary care, 358
secondary prevention: preventive medicine, 302
selective placement, 359
selective screening: screening, 357
self-care: progressive patient care, 313
self-evaluation research: research, 346
senescence: old age, 265
short-term planning: planning, 292
sickness: morbidity, 235
sickness insurance: health insurance, 171
simulation, 360

simulation model: simulation,
360; model, 233

single-blind trial: double-blind
trial, 113

situation analysis, 361

social assistance, 362

social insurance, 363

social medicine, 364

social psychiatry, 365

social rehabilitation:
rehabilitation, 344

social security, 366

social work, 367

somatopsychic: psychosomatic,
319

specialist, 368

specialist in health education:
health educator, 168

specialist practice: specialist,
368

specialized hospital: hospital, 185

speech therapy, 369

spontaneous abortion: abortion,
13

spontaneous monitoring: drug
monitoring, 122

staff relations: line relationships,
204

standard: norm, 246

standard cost: costs, 75

standard costing: costing, 74

standardized birth rate: birth
rate, 46

statistics, 370

sterility: fertility, 141

stillbirth, 372

stillbirth rate: stillbirth, 372

stomatological; dental, 90

stomatologist, 373

strategic planning: planning, 292

structure: organization, 268

surgery consultation: consultation,
67

system, 374

systems analysis, 375

systems design, 377

systems research, 378

tactical planning: planning, 292

target: objective, 261

task, 379

team, 380

team practice: team, 380

teamwork: team, 380

term: pre-term, 300

tertiary care: secondary care, 358

tertiary medical care: secondary
care, 358

tertiary prevention: preventive
medicine, 302

therapeutic abortion: abortion, 13

time and motion study: work study,
390

tolerance, 381

total abortion rate: abortion, 13

total birth rate: birth rate, 46

total fertility rate: fertility rate, 142

training, 382

trillion: billion, 45

undergraduate education, medical:
medical education, 222

unit costing: costing, 74
universe, 383

validity, 385
variable cost: costs, 75
veterinary public health, 386
visit: consultation, 67
vital event: vital records, 387
vital records, 387
vital statistics: vital records, 387
vocational counselling, 388
vocational guidance: vocational counselling, 388
vocational rehabilitation:
 rehabilitation, 344
vocational training, medical:
 medical education, 222

water pollution, 389
weighted average/mean: average, 37
work measurement: work study,
 390
work study, 390

youth advisory service, 391

zoonoses, 393
