THIRD MEETING OF THE WHO WORKING GROUP ON PARKINSON'S DISEASE

London, 11 June 1999

REPORT

This meeting reviewed the ongoing WHO activities related to Parkinson's disease and discussed new projects to be undertaken in this field. Terms of reference of this WHO Working Group specifying the administrative status of the Working Group were presented, discussed and adopted. A timetable of future activities was produced and specific projects were assigned to those members of the Group responsible for their completion.
