

WHO – SUICIDE PREVENTION SUPRE

MULTISITE INTERVENTION STUDY ON SUICIDAL BEHAVIOURS – SUPRE-MISS:

PROTOCOL OF SUPRE-MISS

This document presents the protocol of SUPRE-MISS, the multisite intervention study on suicidal behaviours.

The study uses a questionnaire covering socio-demographic, medical and psychological information with regards to present and previous suicide attempts and suicidal ideation, as well as a socio-cultural assessment instrument.

This document is part of SUPRE, the WHO worldwide initiative for the prevention of suicidal behaviours.
