BIBLIOGRAPHY ON COMPARATIVE ATHEROSCLEROSIS

compiled by

The Veterinary Public Health Unit
World Health Organization

Geneva, Switzerland

INTRODUCTION

With the publication "Comparative Atherosclerosis" edited by J. C. Roberts and R. Strauss, Harper & Rowe, New York, there is now available a bibliography containing most of the important references in this field up to the early part of 1964. The Veterinary Public Health unit of WHO plans to keep the bibliography of this subject up to date by issuing supplements from time to time. A copy of the first of these lists of references is attached herewith. Copies will be sent on request to libraries and to individuals interested in this field.

To ensure inclusion of their articles in future lists, authors are requested to send in reprints.

Professor W. I. B. Beveridge
Consultant
Veterinary Public Health
Division of Communicable Diseases

PRIMATES

1960-1963

- Delcourt, R. (1962) Etude comparée des bêta-lipoprotéines légères du chimpanzé et de l'homme, Acta cardiol. (Brux.), 17, 269-282
- Gilbert, C. & Gillman, J. (1960) Structural modifications in the coronary artery of the baboon (Papio ursinus), with special reference to age and endocrine status, S. Afr. J. med. Sci., 25, 59-70
- Groover, M. E. jr (1963) Experimental arterial lesions in the baboon, 1st int. Symp. on the Baboon and its Use as an Exp. Anim., S. -W. Found., Res. Educ., S. Antonio, Texas
- Vastesaegeer, M., Delcourt, R. & Gillot, P. (1960) L'arteriosclérose coronarienne spontanée chez les primates, Proc. 3rd Europ. Congr. Cardiol., Rome, (Exc. med. int. Congr., Ser. 39)
- Werthessen, N. T. (1963) The baboon as a laboratory animal for studies related to atherosclerosis, 1st int. Symp. on the Baboon and its Use as an Exp. Anim., S. -W. Found., Res. Educ., S. Antonio, Texas

1964-1965

- Cros, J. et al. (1964) Lésions athéromateuses créées chez un jeune singe Erythrocebus patas patas par un régime sémi-synthétique, Arch. Mal. du Coeur, 57, Suppl. 3, Rev. de l'Athéroscl., 77-83
- Gresham, G. A. et al. (1964) Atherosclerosis in primates, Br. J. exp. Path., 46, 94-103
- Jagannathan, S. N., Madhavan, T. V. & Gopalan, C. (1964) Effect of adrenaline on aortic structure and serum cholesterol in Macaca radiata, J. Atheroscl. Res., 4, 335-345
- Kadziolka, A. & Teuscher, E. (1964) Arteriosklerose beim Schimpansen, Schweiz. Arch. Tierheilk., 106, 522-529
- Kerr, G. R., Wolf, R. C. & Waisman, H. A. (1965) Hyperlipemia in infant monkeys fed excess L-histidin, Proc. Soc. exp. Biol. (N.Y.), 119, 561-562
- Wissler, R.W. et al. (1964) Lipoprotein induced model lesions in the aortic media of Rhesus monkeys, Fed. Proc., 23, 101

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

Furthermore, it is noted that regular audits are essential to identify any discrepancies or errors early on. By conducting these checks frequently, the organization can prevent small mistakes from escalating into larger financial issues.

In addition, the document highlights the need for clear communication between all departments involved in the financial process. This includes the accounting, sales, and procurement teams. Regular meetings and reports can help ensure that everyone is on the same page and that the financial goals are being met.

The second part of the document focuses on the implementation of a robust internal control system. This system is designed to minimize the risk of fraud and ensure that all financial activities are conducted in accordance with established policies and procedures.

Key components of this system include segregation of duties, which prevents any single individual from having too much control over a particular financial process. This helps to reduce the potential for abuse and ensures that all transactions are properly authorized and documented.

Another important element is the use of standardized forms and templates for all financial documents. This not only makes the data more consistent and easier to analyze but also helps to streamline the workflow and reduce the time spent on administrative tasks.

Finally, the document stresses the importance of ongoing training and education for all employees. By keeping staff up-to-date on the latest financial regulations and best practices, the organization can ensure that it remains compliant and efficient in its operations.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both manual and automated processes. The goal is to ensure that the information is both reliable and up-to-date.

The third part of the report details the results of the analysis. It shows a clear upward trend in the data over the period covered. This indicates that the current strategy is effective and should be continued.

Finally, the document concludes with a series of recommendations for future actions. These include expanding the data collection process to include more sources and implementing more advanced analytical tools.
