

TAPPING THE SOURCES

The following agencies offer comprehensive information on the topics presented in this report.

- ▶ **World Health Organization (WHO)**
Provides guidelines, best practice materials and statistics on water, sanitation and health, including: drinking water quality; access to drinking water; basic sanitation; hygiene; water-related disease; wastewater use; household water treatment and safe storage (http://www.who.int/water_sanitation_health/en/).
- ▶ **UNICEF**
Publishes technical, policy and advocacy documents related to drinking water and sanitation and children, including: school sanitation and hygiene education; hygiene promotion; sanitation (http://www.unicef.org/wes/index_documents.html).
- ▶ A consortium of nongovernmental organizations in the United Kingdom, including WaterAid and Oxfam
Prepared a series of recommendations for the G8 summit in November 2003 on ways of delivering the MDG drinking water and sanitation target (http://www.oxfam.org.uk/what_we_do/issues/health/downloads/g8evian_water.pdf).
- ▶ **Centre Régional pour l'Eau Potable et l'Assainissement à faible coût (CREPA)**
Publishes documents on hygiene, water supply, and sanitation (in French) with a focus on West Africa (<http://www.reseaucrepa.org/index.htm>).
- ▶ **Environmental Health Project (EHP)**
Provides comprehensive lessons learned and guidelines on health-related topics, including: preventing childhood diarrhoea through hygiene improvement; improving health for the urban poor; household water treatment (<http://www.ehproject.org/>).
- ▶ **Global Water Partnership (GWP)**
Provides a toolbox, case studies and reference materials on implementation of integrated water resources management (<http://gwpforum.netmasters05.netmasters.nl/en/index.html>).
- ▶ **Instituto de Investigación y Desarrollo en Agua Potable, Saneamiento Básico y Conservación del Recurso Hídrico (CINARA)**
Publishes documents on water supply, basic sanitation and water conservation (in Spanish), with a focus on Latin America (<http://www.cinara.org.co/>).
- ▶ **IRC International Water and Sanitation Centre**
Discusses and publishes documents on themes such as: scaling up community management; water and livelihoods; finance and cost recovery; hygiene promotion; water and gender, operation and maintenance (<http://www.irc.nl/page/102>).
- ▶ **Pan American Center for Sanitary Engineering and Environmental Sciences (CEPIS)**
Publishes documents on water, sanitation and hygiene (in English and Spanish), with a focus on the Americas (<http://www.cepis.ops-oms.org/indexeng.html>).
- ▶ **United Nations Development Programme (UNDP)**
Its MDG home page (<http://www.undp.org/mdg/>) includes a section on making sense of MDG costing, which includes an important point about the complementarity of the eight MDG goals, and hence the fallacy of adding together cost estimates for their achievement.
- ▶ **Water and Sanitation Program (WSP)**
Provides information on topics including: rural and small towns; services to the urban poor; sanitation, health and hygiene; participation and gender (<http://www.wsp.org/> –follow “In the Sector” links).
- ▶ **Water, Engineering and Development Centre (WEDC)**
Publishes documents and pamphlets on a wide range of themes, including: public-private partnership and the poor in water sanitation; guidelines for sustainable handpump projects in Africa; access to water and sanitation for disabled people; social marketing for urban sanitation (<http://wedc.lboro.ac.uk/index.php>).
- ▶ **Water Supply and Sanitation Collaborative Council**
Promotes the Water, Sanitation and Hygiene for All (WASH) campaign, providing facts, figures and news reports on global progress (<http://www.wsscc.org>).
- ▶ **WHO Regional Centre for Environmental Health Activities (CEHA)**
Publishes documents and provides information on water, sanitation and hygiene, with a focus on the Middle East region (in Arabic, English and French) (<http://www.emro.who.int/ceha/>).
