# STUDY GROUP ON THE ECOLOGY OF INTERMEDIATE SNAIL HOSTS OF BILHARZIASIS

## Report

	Page
1. Distribution of intermediate snail hosts in relation to hydrogeology . . . . .	3
2. Factors conditioning the habitat and breeding conditions .	5
3. Seasonal and climatic factors influencing the life-cycle . .	23
4. Present knowledge of ecology and its application to bilharziasis control measures . . . . .	26
5. Quantitative methods for the measurement of the density of mollusc populations during surveys and for the evaluation of results of control methods . . . . .	34
6. Suggestions for further studies in ecology and physiology in relation to control methods . . . . .	36
