Ce Relevé contient des renseignements reçus des administrations sanitaires nationales par l'OMS en son siège, ses bureaux régionaux et la Station d'informations épidémiologiques de Singapour.

Les notifications prescrites par la législation sanitaire internationale en vigueur, concernant les mesures quarantenaires, les vaccinations et autres sujets, sont publiées telles qu'elles sont reçues des gouvernements; aucun commentaire ne les accompagne, même lorsqu'elles semblent dépasser les dispositions de cette législation.

Dans ce dernier cas, le gouvernement intéressé est averti des divergences constatées; toutefois, les administrations sanitaires sont invitées à présenter toute remarque à l'OMS à l'adresse suivante:

Section de la Quarantaine internationale
Adresse télégraphique: EPIDNATIONS, GENÈVE.

This Record is compiled from information received from national health administrations, by WHO Headquarters, Regional Offices and the Epidemiological Intelligence Station at Singapore.

Notifications required under existing international sanitary legislation are, in respect of quarantine measures, vaccination and other items, published as received from reporting governments, without comment, even though the contents of such notifications appear to be in excess of the provisions of that legislation.

In the latter event, the attention of the government concerned will be drawn to discrepancies, but health administrations are invited to present their comments to WHO. All communications to be sent to:

Section of International Quarantine.
Telegraphic Address: EPIDNATIONS, GENÈVE.

MALADIES QUARANTENAIRES — QUARANTINABLE DISEASES

dans des villes attenantes à un port ou un aéroport — in towns adjacent to a port or an airport

Un cas, confirmé ou suspect, d'une maladie quarantenaire est apparu, pendant la période indiquée sous le nom de chaque maladie, dans les villes énumérées ci-dessous.

La date indiquée est celle de la fin de la semaine pendant laquelle le dernier cas notifié est survenu. En général, les rapports reçus se réfèrent à la semaine entière précédant la date de la publication du Relevé.

Une ville continuera à figurer dans cette liste jusqu'à ce qu'il soit notifié pour chaque maladie qu'aucun cas n'est survenu pendant la période énoncée.

Cette liste est préparée d'après les renseignements devant être fournis à l'Organisation en application de l'article 9 du Règlement Sanitaire International, renseignements qui, selon l'article 11, doivent être retransmis par elle à toutes les administrations sanitaires.

A confirmed or suspected case of a quarantinable disease has occurred, during the period indicated under the heading of each disease, in the towns listed below.

The date shown is that of the end of the week in which the last notified case occurred. In general the reports received refer to the last complete week prior to the date of publication of the Record.

A town will remain on the list until reports received show that on case has occurred during the period stated for each disease.

This list is prepared from information required to be sent to the Organization under Article 9 of the International Sanitary Regulations, and to be transmitted by it, under Article 11, to all health administrations.
