CERTIFICATS DE VACCINATION EXIGÉS
DANS LES VOYAGES INTERNATIONAUX

Amendements à la publication du 20 décembre 1960

VACCINATION CERTIFICATE REQUIREMENTS
FOR INTERNATIONAL TRAVEL

Amendments to publication of 20 December 1960

A la page 2, AVANT-PROPOS, sous **Certificats internationaux de Vaccination**,
insérer :

Validité des certificats

1. **Choléra.** — Durée de la validité: six mois, à partir du sixième jour qui suit une injection de vaccin. Toute injection pratiquée avant la fin de la période de validité rend le certificat valable pour une nouvelle période de six mois, à compter de la date de la nouvelle injection.

2. **Fièvre jaune.** — Durée de la validité: six ans, à partir du dixième jour qui suit une première vaccination. (Dans certains cas, Ceylan, l'Inde et le Pakistan ne considèrent le certificat comme valable que douze jours après la vaccination — Voir les exigences de ces pays.) Toute revaccination pratiquée avant la fin de la période de validité rend le certificat valable pour une nouvelle période de six ans, à compter du jour de cette revaccination.

3. **Variole.** — Durée de la validité: trois ans, à partir du huitième jour qui suit une primo-vaccination effectuée avec succès. Dans le cas d'une revaccination, la période de validité de trois ans commence le jour même.

On page 3, FOREWORD, under **International Certificates of Vaccination**, *insert :*

1. **Cholera vaccination certificates** are valid for a period of six months starting six days after one injection of vaccine. One injection given before the end of the validity of the certificate renders the certificate valid for a further period of six months starting on the day of this injection.

2. **Yellow-fever vaccination certificates** are valid for a period of six years starting ten days after vaccination. (Under certain circumstances, Ceylon, India and Pakistan have the right to extend the ten day period above to twelve days—See their requirements.) Revaccination performed before the end of the validity of the certificate, renders the certificate valid for a further period of six years starting on day of the revaccination.

3. **Smallpox vaccination certificates** are valid for a period of three years starting eight days after the date on which a successful primary vaccination is performed. In the case of a revaccination, the validity period of three years starts on the day of the revaccination.
