RELEVÉ ÉPIDÉMIOLOGIQUE HEBDOMADAIRE WEEKLY EPIDEMIOLOGICAL RECORD

Notifications et informations se rapportant à l'application
 du Règlement sanitaire international et notes relatives à la
 fréquence de certaines maladies

Service de la Quarantaine internationale
 Adresse télégraphique: EPIDNATIONS, GENÈVE

Notifications under and information on the application of the
 International Sanitary Regulations and notes on current incidence
 of certain diseases

International Quarantine Service
 Telegraphic Address: EPIDNATIONS, GENEVA

1^{er} OCTOBRE 1965

40^e ANNÉE — 40th YEAR

1 OCTOBER 1965

MALADIES QUARANTENAIRES — QUARANTINABLE DISEASES

Territoires infectés au 30 septembre 1965 — Infected areas as on 30 September 1965

Notifications reçues aux termes du Règlement sanitaire international
 concernant les circonscriptions infectées ou les territoires où la présence
 de maladies quaranténaires a été signalée (voir page 420).

■ = Circonscriptions ou territoires notifiés aux termes de l'article 3 à la
 date donnée.

Autres territoires où la présence de maladies quaranténaires a été notifiée
 aux termes des articles 4, 5 et 9 a):

A = pendant la période indiquée sous le nom de chaque maladie;
 B = antérieurement à la période indiquée sous le nom de chaque maladie;
 * = territoires nouvellement infectés.

Notifications received under the International Sanitary Regulations relating
 to infected local areas and to areas in which the presence of quarantinable
 diseases was reported (see page 420).

■ = Areas notified under Article 3 on the date indicated.

Other areas in which the presence of quarantinable diseases was notified
 under Articles 4, 5 and 9 (a):

A = during the period indicated under the heading of each disease;
 B = prior to the period indicated under the heading of each disease;
 * = newly infected areas.

NOTES SUR LES UNITÉS GÉOGRAPHIQUES — NOTE ON GEOGRAPHIC AREAS

Il ne faudrait pas conclure de la présentation adoptée dans le *Relevé épidémiologique hebdomadaire* que l'Organisation Mondiale de la Santé admet ou reconnaît officiellement le statut ou les limites des territoires mentionnés. Ce mode de présentation n'a d'autre objet que de donner un cadre géographique aux renseignements publiés. La même réserve vaut également pour toutes les notes et explications relatives aux pays et territoires qui figurent dans les tableaux. Les « circonscriptions » (voir définition de ce terme dans le Règlement sanitaire international) sont présentées suivant les notifications reçues des administrations sanitaires.

The form of presentation in the *Weekly Epidemiological Record* does not imply official endorsement or acceptance by the World Health Organization of the status or boundaries of the territories as listed or described. It has been adopted solely for the purpose of providing a convenient geographic basis for the information herein. The same qualification applies to all notes and explanations concerning the geographic units for which data are provided. Local areas under the International Sanitary Regulations are presented as designated by health administrations.

RÈGLEMENT SANITAIRE INTERNATIONAL — INTERNATIONAL SANITARY REGULATIONS

Certificat international de Vaccination ou de Revaccination contre la Fièvre Jaune ¹

Les pays suivants, bien que n'étant pas liés par le Règlement sanitaire international, reconnaissent au certificat international de vaccination ou de revaccination contre la fièvre jaune une durée de validité de dix ans:

Birmanie
Malte

International Certificate of Vaccination or Revaccination against Yellow Fever ¹

The following countries, although not bound by the International Sanitary Regulations, accept the validity period of ten years for the International Certificate of Vaccination or Revaccination against Yellow Fever:

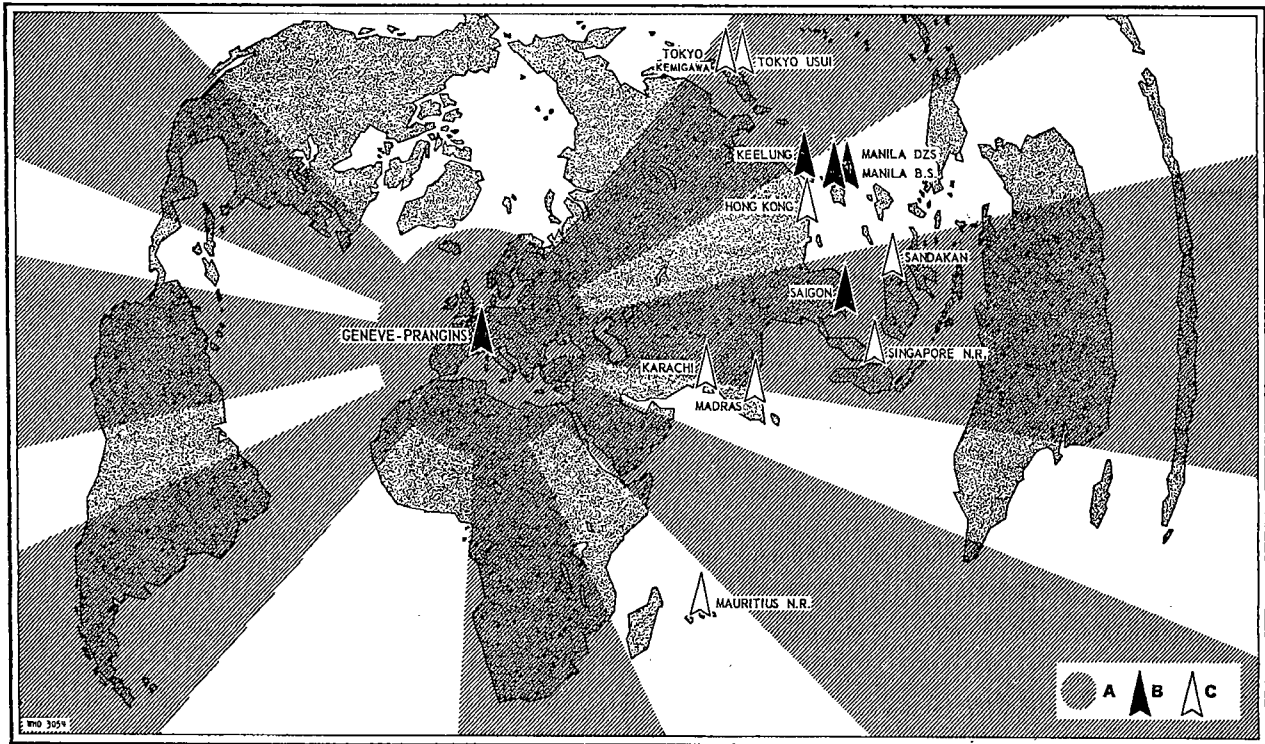

Burma
Malta

¹ Voir N° 38, p. 473.

¹ See No. 38, p. 473.

 C = Stations émettant une ou deux fois par semaine. — Stations transmitting once or twice a week.

INFORMATIONS ÉPIDÉMIOLOGIQUES

EPIDEMIOLOGICAL NOTES

CHOLÉRA

CHOLERA

Asie

Asia

Brunéi. — Un cas de choléra à Brunéi a été notifié par télégramme le 21 septembre. Les pays voisins ont été prévenus par télégramme de Genève du 22 septembre; cette information est, en outre, diffusée depuis le 23 septembre dans le *Bulletin épidémiologique radiotélégraphique quotidien de l'OMS*. Les mesures nécessaires ont été prises.

Par télégramme du 24 septembre, l'administration sanitaire de Brunéi signalait que 14 cas au total (tous hospitalisés) avaient été rapportés, dont sept cas confirmés de choléra El Tor; les examens de la souche sont en cours. On poursuit également l'enquête entreprise en vue d'établir l'origine de l'infection.

Le choléra n'avait pas été signalé à Brunéi depuis de nombreuses années.

Sarawak. — Par télégramme du 29 septembre un cas de choléra a été notifié dans la Division de Limbang (cinquième division) qui est limitrophe de Brunéi. Le choléra n'avait pas été observé à Sarawak depuis le 15 juin, date à laquelle un cas avait été notifié dans la Division de Sibü (troisième division).

Brunei. — One case of cholera in Brunei was notified by telegram on 21 September. Countries in that area were informed by direct telegram from Geneva on 22 September and the information was included in the *WHO Daily Epidemiological Radiotelegraphic Bulletin* beginning 23 September. Preventive measures were being undertaken.

A further telegram from the health administration on 24 September states that a total of 14 cases (all in the hospital) have been reported, of which seven have been confirmed as cholera El Tor, and the strain is under investigation. The source of original infection is likewise still under investigation.

Cholera had not been reported in Brunei for many years.

Sarawak. — One case of cholera was notified by telegram on 29 September in Limbang (Fifth) Division which borders Brunei. Cholera had not been observed in Sarawak since 15 June 1963 when one case was reported in Sibü (Third) Division.
