

8. MISCELLANEOUS

8.1 AWARDS

See also Volume II,
page 390.

EB78(6) The Executive Board decided that the report to the Board by each foundation committee should always reflect any minority views that may have been expressed during the committee's deliberations, and should contain a curriculum vitae of any candidate preferred by a minority of members, in addition to the curriculum of the candidate recommended by the committee as a whole. The Board would then consider whether it was in a position to reach its decision on the basis of the committee's report, or whether the chairman and other members of the committee should be invited to provide supplementary information. The Board's discussions would be limited to the candidates mentioned in the committee's report.

May 1986

EB87(9) The Executive Board, having studied a suggestion by the Léon Bernard and Dr A. T. Shousha Foundation Committees concerning the amounts and periodicity of the awards they make, requested the Director-General to complete a comprehensive study of the question as it related to those and other awards and the modalities of their administration, for submission to the Board at its eighty-ninth session with a view to possible changes, as necessary.

January 1991

8.1.1 DARLING FOUNDATION

See also Volume II,
page 391.

EB77(9) The Executive Board, after considering the report of the Darling Foundation Committee, awarded the sixteenth Prize to Professor R. H. Black and the seventeenth Prize to Professor D. F. Clyde for their outstanding contributions in the field of epidemiology, therapy and control of malaria in different parts

of the world. It endorsed the Foundation Committee's recommendation that, in accordance with Article 8 of the Regulations of the Foundation, the prizes be presented during a meeting of the Thirty-ninth World Health Assembly in May 1986; should a recipient be unable to attend the award ceremony in person, the prize would be presented to a person representing him.

January 1986

EB85(6) The Executive Board, after considering the report of the Darling Foundation Committee, awarded the eighteenth Prize to Professor H. M. Gilles and the nineteenth Prize to Dr S. Pattanayak. It also endorsed the recommendation of the Foundation Committee that the prizes be presented during a plenary meeting of the Forty-third World Health Assembly.

8.1.7 Dr COMLAN A. A. QUENUM PRIZE

EB79(1) The Executive Board, having considered a recommendation¹ by the Regional Committee for Africa on the establishment of a Dr Comlan A. A. Quenum Prize for Public Health in Africa, decided to entrust the Regional Committee with the establishment of the Prize, including the drawing up of appropriate rules and the making of arrangements for the selection of award winners; the Prize would be presented to the winner during a subsequent session of the Health Assembly by its President.

January 1987

¹ Resolution AFR/RC36/R8.

8.1.8 FRANCESCO POCCHIARI FELLOWSHIP*Article 6***EB87.R11 The Executive Board,**

Having noted the proposal presented by the Italian Government to establish an endowment of US\$ 104 960 for the institution of an award within the framework of the World Health Organization;

Having examined the proposed Statutes of the Francesco Pocchiari Fellowship;

1. EXPRESSES its gratitude to the Italian Government;
2. APPROVES the establishment of the Francesco Pocchiari Fellowship in accordance with the attached Statutes.

Annex

**STATUTES OF THE FRANCESCO POCCHIARI
FELLOWSHIP**

*Article 1**Establishment*

Under the title of "Francesco Pocchiari Fellowship", a fellowship is established within the framework of the World Health Organization, which shall be governed by the following provisions.

*Article 2**The Founder*

The Fellowship is established upon the initiative and with funds provided by the Italian Government (hereinafter referred to as "the Founder"), to honour the memory of Professor Francesco Pocchiari, former Director-General of the Istituto Superiore di Sanità, Rome.

*Article 3**Capital*

The Founder endows the Fellowship with an initial capital of US\$ 104 960. The capital of the Fellowship may be increased by all the income from its undistributed reserves or by gifts and bequests.

*Article 4**Purpose*

The Fellowship is established for the purpose of awarding, every two years, one or two travelling fellowships, if the accumulated interest from the capital allows it, of US\$ 10 000 each to researchers from developing countries to enable them to visit other countries in order to obtain new experience relevant to their own research.

*Article 5**Fellowship Committee*

The Fellowship Committee shall consist of the Director of the Istituto Superiore di Sanità, Rome, and four members of the WHO global Advisory Committee on Health Research (ACHR) selected by the Chairman of ACHR.

Proposal and election of candidates for the Fellowship

1. Any national health administration may put forward the name of a person for the Fellowship. Fully documented proposals shall be made to the WHO Secretariat in Geneva. The Fellowship Committee shall decide in private meeting, by a majority of the members present, on the recommendation to be made to the Executive Board of the World Health Organization, whose decision shall be final.

2. Should the Executive Board not accept any of the recommendations put forward by the Fellowship Committee, the matter shall be referred to an ad hoc committee of the Board, consisting of the Chairman and Vice-Chairmen of the Board and the Chairman of ACHR. This ad hoc committee shall submit its recommendation to the Board for its final decision.

*Article 7**Solemn announcement*

The name of the person(s) awarded the Fellowship shall be solemnly announced at a public meeting of the Health Assembly.

*Article 8**Administration*

The Fellowship shall be administered by its Administrator, namely the Director-General of the World Health Organization.

Article 9

The Administrator shall be responsible:

- (1) for the execution of the decisions taken by the Fellowship Committee within the limits of its powers as defined in these Statutes; and
- (2) for the observance of the present Statutes and generally for the operation of the Fellowship as limited by these Statutes.

*Article 10**Revision of the Statutes*

On the proposal of one of its members, the Fellowship Committee may decide, by a majority vote, to revise the present Statutes. Any such motion shall be submitted to the Executive Board for its approval.

HEALTH FOR ALL AND THE PROMOTION OF PEACE

WHA39.19 The Thirty-ninth World Health Assembly,

Noting United Nations General Assembly resolution 40/3, proclaiming 1986 as the International Year of Peace;

Taking into account Health Assembly resolutions WHA13.56, WHA13.67, WHA15.51, WHA17.45, WHA20.54, WHA23.53, WHA32.24, WHA32.30, WHA33.24, WHA34.38 and WHA36.28 and other resolutions pertaining to the role of physicians in preserving and promoting peace;

Recalling the provisions of the WHO Constitution concerning the close relationship of health with the promotion of peace and international security as well as the provisions of United Nations General Assembly resolution 34/58 stating that peace and security, in their turn, are important for the preservation and improvement of the health of all people and that cooperation among nations on vital health issues can contribute significantly to peace;

Bearing in mind the affirmation in the Declaration of Alma-Ata that a genuine policy of peace, international détente and disarmament should release additional resources required among other things for the achievement of health for all by the year 2000;

1. URGES Member States:

(1) to continue their efforts for the attainment of health for all, including the preservation and promotion of peace;

(2) to strive for the cessation of the arms race, with particular regard to nuclear weapons, and for the utilization of the resources thus released to finance national programmes of social and economic development, including programmes related to health and medical sciences;

2. REQUESTS the Director-General:

(1) to continue to take appropriate measures to implement resolution WHA36.28 and to submit a report to the Fortieth World Health Assembly;

(2) to inform the Secretary-General of the United Nations of the action taken by the World Health Organization within the framework of the International Year of Peace.

May 1986

EFFECTS OF NUCLEAR WAR ON HEALTH AND HEALTH SERVICES

WHA40.24 The Fortieth World Health Assembly,

Bearing in mind the principle laid down in the WHO Constitution that the health of all peoples is fundamental to the attainment of peace and security;

Recalling United Nations General Assembly resolutions 34/58, 38/188J and 40/10, and also Health Assembly resolutions WHA34.38 and WHA36.28 stressing the close interrelationship between health and the preservation of peace;

Having considered the second report on the effects of nuclear war on health and health services prepared by the WHO Management Group;

1. THANKS the Management Group for its work;

2. EXPRESSES its deep concern at the conclusions contained in the Management Group's report on the effects of nuclear war on health and health services;

3. URGES the governments of Member States to take into consideration in their activities the main points and conclusions of the report;

4. DECIDES that the investigation of other health aspects of the effects of nuclear war that are not reflected in the report should be continued, in collaboration with interested United Nations bodies and other international organizations;

5. REQUESTS the Director-General:

(1) to make the report widely known by publishing it with all its scientific annexes and prefacing it with this resolution;

(2) to transmit the report to the Secretary-General of the United Nations and also to the executive heads of other international organizations with a view to its consideration by the appropriate United Nations bodies and other organizations;

(3) to report periodically to the Health Assembly on progress in this field.

May 1987

EFFECTS ON HEALTH OF WITHHOLDING
MEDICAL SUPPLIES

EB81(3) The Executive Board concurred with the observations put forward in the note by the Director-General on the effects on people's health of withholding medical supplies.¹ It requested the Director-General to take the necessary measures to ensure the provision of medical supplies to any Member State that has notified him that it is being deprived of such supplies by another Member State. If, in spite of his efforts, the Director-General cannot find a satisfactory solution, he should bring the matter to the attention of the Executive Board and the Health Assembly.

January 1988

¹ Document EB81/1988/REC/1, p. 170.

WHA41.31 The Forty-first World Health Assembly,

Mindful of the principle contained in the WHO Constitution stating that the health of all peoples is fundamental to the attainment of peace and security;

Reaffirming that the United Nations General Assembly resolution 2625 (XXV) concerning friendly relations and cooperation between countries is fully valid for the solution of the problems facing those countries;

Rejecting any embargo on medical supplies for political reasons;

Recalling the note by the Director-General¹ concerning the effects on people's health of withholding medical supplies and the Executive Board's decision on the subject;

CONFIRMS the principles laid down by the Executive Board's decision EB81(3).

May 1988

¹ See document EB81/1988/REC/1, p. 170.

WHA42.24 The Forty-second World Health Assembly,

Mindful of the principle contained in the WHO Constitution stating that the health of all peoples is fundamental to the attainment of peace and security;

Reaffirming resolution WHA41.31 on the embargo on medical supplies and its effects on health care;

Recalling the decision of the eighty-first session of the Executive Board regarding the effects on people's health of withholding medical supplies;

1. CONFIRMS resolution WHA41.31 and the principles laid down by the Executive Board's decision EB81(3) rejecting any embargo on medical supplies for political reasons, on account of the effects on health care of such an embargo;

2. APPEALS, in the spirit of paragraph 4 of Article 2 of the United Nations Charter, to all Member States of the United Nations to abstain from aggression and the use of threats in their international relations, including threats against medical centres and medical production plants;

3. URGES all littoral Member States to refrain from imposing restrictions against the movement of medicines, medical equipment and pharmaceutical raw materials across national boundaries of landlocked countries.

May 1989

EB89.R16 The Executive Board,

In accordance with the basic principles of the WHO Constitution which stipulate that one of the fundamental rights of every human being is to enjoy the highest attainable standard of health without distinction of race, religion, political belief, economic or social condition;

Mindful of the objective of the World Health Organization which is the attainment by all peoples of the highest possible level of health;

Reaffirming resolutions WHA41.31 and WHA42.24 concerning embargo on medical and food supplies and its impact on health care;

Recalling decision EB81(3) of the Executive Board concerning the effects of withholding medical supplies;

Mindful also of the deterioration of the health status of peoples beset by disasters and armed conflicts;

Appreciative of the continued commitment to effective cooperation and dialogue among Member States of the Organization,

REQUESTS the Director-General:

(1) to call upon all Member States of the Organization to help enable the peoples of the world to meet their health needs by all possible means, and to do his utmost to ensure the attainment of this goal;

(2) to urge Member States to refrain in all circumstances and situations from imposing restrictions on indispensable medical supplies and their transit across international borders, and to remind them of decision EB81(3) of the Executive Board in this regard.

January 1992

8.3 SPECIAL EVENTS

See also Volume II,
page 399.

FORTIETH ANNIVERSARY OF WHO

WHA40.36 The Fortieth World Health Assembly,

Noting that in 1988 forty years will have elapsed since the World Health Organization was founded, and justifiably proud of the results so far achieved, under WHO's guidance and leadership, in many fields of health development, the most vivid example being the eradication of smallpox from the planet in 1977;

Deeply conscious, nevertheless, of the immense tasks that still remain to be accomplished by countries in order to reach the goal of health for all through the implementation of national strategies, paying special attention to the development of primary health care in line with the 1978 Declaration of Alma-Ata, the tenth anniversary of which coincides with the fortieth anniversary of WHO;

Aware that these tasks will be greatly facilitated by full technical, moral and political cooperation within WHO;

1. INVITES Member States to intensify their efforts during 1988 and following years to attain the global goal of health for all by the year 2000 and, in particular:

(1) to mobilize all possible human, physical and financial resources to the above end;

(2) to set in motion social forces which will accelerate the health development process through the primary health care approach so that the health and social targets set for the end of this century, and unanimously agreed upon by all Member States, can be reached;

(3) to foster still greater collaboration between health authorities, other health-related sectors, WHO and all interested nongovernmental and voluntary organizations working in health-related fields in a spirit of true partnership for health development;

(4) to ensure the media's interest in and coverage of health programmes and health-related activities, emphasizing health systems based on primary health care to attain health for all by the year 2000;

(5) to take the greatest possible advantage of the fortieth anniversary to focus the attention of people in all walks of life – from ordinary citizens to the highest political leaders –

upon past achievements, and present and future aspirations of the World Health Organization through appropriate events, celebrations and information dissemination;

(6) to report to the Director-General on action taken or planned, in time for him to present a consolidated report to the Forty-first World Health Assembly;

2. INVITES the regional committees to give strong support to countries in their activities relating to the fortieth anniversary throughout the year, and to make the anniversary solemnly on the occasion of their sessions;

3. INVITES the Executive Board to participate actively in the planning and implementation of WHO's action relating to the anniversary, and to suggest appropriate ways of celebrating the occasion during the Forty-first World Health Assembly as a manifestation of worldwide health solidarity;

4. REQUESTS the Director-General:

(1) to use the fortieth anniversary as a global opportunity to inform and mobilize all concerned and show to the world that health development is possible through international collaboration in an atmosphere of goodwill, consensus and mutual respect;

(2) to transmit this resolution to the United Nations Economic and Social Council with a view to seeking the Council's support for the observance of the fortieth anniversary of WHO in pursuance of United Nations General Assembly resolution 36/43 on the Global Strategy for Health for All by the Year 2000;

(3) to report to the Forty-first World Health Assembly on action taken or planned by Member States and the Organization as a whole;

5. CALLS UPON the United Nations, the specialized agencies, bilateral agencies, and intergovernmental and nongovernmental organizations concerned to observe the Organization's fortieth anniversary and, on that occasion, consider measures to strengthen further the links with WHO in order to ensure closer collaboration and concrete action in support of health in all sectors of development;

6. RESOLVES that all delegates to this Health Assembly shall stimulate urgent and vigorous action in their countries to ensure that the anniversary becomes a successful booster to the health of people everywhere.

May 1987

EB81.R14 The Executive Board,

Having considered the report of the Director-General on WHO's fortieth anniversary;

Considering resolution WHA40.36 adopted by the Fortieth World Health Assembly on the subject, and especially operative paragraph 3;

Taking note of the plans drawn up for the celebration during the Forty-first World Health Assembly of WHO's fortieth anniversary and the tenth anniversary of the Declaration of Alma-Ata;

Recognizing that it would be inappropriate during these times of financial constraints to have lavish and costly celebrations;

1. AGREES that the proposed plans be implemented with the utmost discretion, austerity and dignity, as befits the image of the Organization;

2. CALLS UPON all Member States, nongovernmental organizations and organizations of health professionals to join in celebrating and acknowledging this important event in a positive and practical manner;

3. RECOMMENDS that all activities undertaken to commemorate this event throughout the year be reported to the Director-General.
